

MPA Estimated Tuition Costs 2020 - 2021

Welcome

Students often ask about the total cost of the MPA degree or cost per unit. This is complicated by a variety of factors.

Costs for the MPA vary depending on:

- 1) California resident or non-resident status
- 2) Number of classes taken per term
- 3) Number of online classes taken

The MPA consists of 36 semester units - 3 units per class.

These are approximate costs:

California Resident Taking Only Traditional Courses (no online)

For one class a semester $\$2,710 \times 12 = \$32,520$ or \$903 per unit

For two classes a semester $\$2,710 \times 6 = \$16,260$ or \$451 per unit

For three classes a semester $\$4,216 \times 4 = \$16,864$ or \$468 per unit

California Residents Taking online classes (\$135/per unit)

For one class a semester $\$3,115 \times 12 = \$37,380$ or \$1,038

For two classes a semester $\$3,520 \times 6 = \$21,120$ or \$587

For three classes a semester $\$5,431 \times 4 = \$21,724$ or \$604

Non-resident and International Students - There is an additional \$396/per unit fee in addition to the tuition prices above.

$\$396 \text{ per unit} \times 36 \text{ units} = \$14,258$
