Come Make Music With Us!

Any student accepted for admission to CSUSB can declare music as a major and pursue the Bachelor of Arts in Music degree. No audition is required for acceptance into the BA degree program, but students must audition for advanced placement into the appropriate level of applied lessons, theory courses, and piano proficiency courses.

Entrance in to the Bachelor of Music degree requires a demonstration of significant academic, performance, and intellectual achievement. Freshman students may apply any time for entrance to the Bachelor of Music, but freshmen students usually apply to enter the program after the completion of two semesters of CSUSB coursework, and transfers usually apply immediately before their first semester of enrollment. Acceptance to the BM program is dependent upon a performance audition, a written essay, and completion of prerequisite courses in music theory.

CSUSB currently uses the CSU system's priority application deadline of November 30 for admission in the following Fall term.

Music GE Courses for Everyone!
