Mr. Oswood shared that the department believes the best way to utilize the additional Sports Club funding to support the club’s activities would be to purchase a van for their use and generate revenue by renting the van out to other RWC/ SMSU departments when it is not being used by the teams. Mr. Oswood further explained that both vans are often used at the same time and there have been several instances where they need to rent out a third vehicle for the department’s use. Mr. Dickson asked if the vans would be used for trips in addition to being used for Sports Clubs’ trips. Mr. Wong detailed the proposed key check-out process which would include filling out a Key Authorization form and submitting that form to the Director of Recreation and Wellness. Once the request is approved, the access form will be housed by the RWC Administrative Analyst and the student will be added to a list of approved key users. Mr. Wong further detailed the key check-out and transfer procedure and explained the process for the exterior SRWC key box which contains a 4-digit passcode which will be changed anytime a person with access is no longer employed with the RWC. Mr. Wong shared the process for lost and stolen keys, explaining that the individual responsible for checking-out the key would be responsible for the charges of replacing/rekeying the places impacted by the loss. Mr. Burgess reviewed the recommendations submitted by Dr. Mendoza in regards to the policy. Dr. Nester clarified that student assistants are checking out keys from the key box and returning the key to key box or transferring them to another student assistant at the end of each shift. Mr. Allensworth commented about the current procedure and the need to amend the policy. Mr. Wong noted that there is currently not a “Key Access” policy in place; therefore, the proposed document serves to outline the process for incoming and existing staff. Dr. Fong asked about the duplication of keys. Ms. Okoh responded that all keys created by

M/S Ventimiglia/Prince to approve the SMSU Tangram Furniture Purchase not to exceed $75,000.

Mr. Burgess shared that the space between the Santos Manuel Student Union and University Hall was redesigned with palm trees, uplights, and other amenities, but does not include seating aside from the circular bench. Mr. Burgess shared the intent to purchase furniture and umbrellas for that space to provide an additional location for students to enjoy in-between classes. Facilities received a cost estimate of $150,000 from Tangram to address the space. Mr. Burgess recommends partnering with Facilities by committing to either a 50% contribution or a contribution not to exceed $75,000. Mr. Burgess expressed that the investment would benefit students and enhance the appearance of the campus. Ms. Castro inquired if the furniture was weather resistant considering the strong winds. Mr. Burgess expressed the safety of students is always top priority and Facilities Management is committed to purchasing furniture that withstands wind in excess of 100 mph. Mr. Burgess further explained that funds would not be transferred until there is an official quote that is vetted by campus leadership. Mr. Allensworth inquired about the cost for replacement. Mr. Burgess responded that if approved, the Corporation would be committing to a one-time contribution and that the campus would be responsible for replacement. Mr. Brar inquired if the space would be reservable and if so, who would have the ability to schedule the space for events. Mr. Burgess explained that the conversation of who will schedule the space is ongoing; however, the SMSU has always been able to use that space for Vendor Days and other Student Union sponsored events. Mr. Dickson asked if the furniture would remain in that location following the SMSU Expansion. Mr. Burgess verified that there is
no plan to alter that space once the Student Union is expanded. Mr. Burgess stated that the space had to be redesigned in order to be ADA compliant. Dr. Fong echoed Ms. Castro’s concerns about the furniture withstanding the wind and if the company guarantees that it will withstand high winds. Mr. Burgess explained that the Tangram furniture would not be hollow metal like the furniture that is available to consumers, but would rather be commercial grade as the safety of students is paramount. Ms. Castro recommended a second meeting to approve the furniture selected by Facilities Management.
